The Ultimax belts family includes Ultimax HQ, Ultimax UA and Ultimax XP belts for ATVs, UTVs and SxSs; Ultimax MAX, Ultimax PRO and Ultimax XS snowmobile belts; and Ultimax MD (Multi-Duty) belts.

The Belt Experts

Timken Belts is a major supplier of drive belts to original equipment manufacturers. No other aftermarket belt company has this expertise. Each Ultimax belt is engineered for use on specific applications to provide optimal performance. Specially formulated, heat resistant polymers and extra strong aramid cord create a durable and dependable belt. For more than 100 years, Timken Belts has focused on value creation for diverse industries and market segments.

Features and Benefits:

- Each Ultimax belt is engineered for a specific application
- Purpose-built to handle the unique demands of harsh CVT environments
- Constructed with specially formulated advanced polymer compounds
- Fiber-loaded rubber is designed to grip the clutches throughout the life of the belt
- Made with strong and stable aramid cord for superior resistance to shock loads
- Extensive lab and field testing under extreme conditions assure performance and long belt life
- Tenacious gripping power during the highest levels of torque
- Quick and consistent throttle response
- Robust acceleration at high RPM
- Proudly made in the USA

Fitment:

Find the right belt for your machine at: www.ultimaxbelts.com/belt-finder

Note: The numeric portion of the part number will be consistent depending on your machine. For example: UHQ441, UA441 and UXP441 will all provide optimal performance on a 2018 Polaris RZR 900. Choose the best option for your riding style based on recommendations in our fitment guide.
